

HMCCQ 50th

November Update

The big news is that we have a logo to proudly display during the build up to our celebration. A very big thank you to everyone who provided ideas and especially for the enthusiasm we experienced when visiting area meetings.

The next step is to gather expressions of interest (EOI) and there will be a number of ways this can happen. Dave Shipley has been working hard to modify the website to include an online EOI, and there will also be an email version which members can submit. To keep a hold on things Dave has also created a dedicated email address for all future exchanges concerning the 50 year event. In addition to all of this the website will have extra pages devoted to the 50th anniversary where members will be able to keep up with the event planning. These changes will be available soon on the website, if not before the magazine goes to print.

The next stage will be the event planning and this is when we will appeal for help. Many offers to assist were made during our area visits and we will be taking these up in the coming weeks. We also received some really good ideas for activities and the time has now come to start putting all this together.

So in summary we have a logo, we have a venue and a date. What we need now is to know what the numbers are likely to be so please submit your EOI (preferably online) as soon as you can.

Follow the progress on the website.

Doug/Des
